

Visu Wide Chair Wood Base

“The idea for the Visu Wide Chair was to create an elegantly simple interpretation of the archetypal plywood chair. I wanted for the design to have a subdued and timeless character that would add feelings of modern familiarity to any room together with a comfortable seat in form-pressed veneer. The design features a large comfort through its wide, embracing seat, bringing a new perspective to the traditional wooden chair and echoing the ideas of Scandinavian design together with a modern expression.”

Cleaning & Care

Wood base: Clean regularly using a damp and clean cloth. Spilling should immediately be removed to avoid discoloring. Remove stains using a mild mixture of water and detergent. Avoid contact with sharp objects, as these can leave scratches in the wood and lacquer.

For non-upholstered versions:

Clean regularly using a damp and clean cloth. Spilling should immediately be removed to avoid discoloring. Remove stains using a mild mixture of water and detergent. Avoid contact with sharp objects, as these can leave scratches in the wood and lacquer.

For textile upholstered versions:

In case of stains, we generally recommend removing non-greasy stains by carefully dabbing them with a lint-free cloth or sponge wrung out in clean, warm water. Clean by dabbing with soapy water made with a bit of dish soap if necessary. Finally, dab the surface with clean water. We advise visiting Kvadrat.dk, Nevotex.dk, Maharam.com or Gabriel.dk for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.

Leather:

As a natural material, leather requires looking after. If you care for the leather correctly, it will become even more beautiful over time.

Refine Leather, Easy Leather, and Endure Leather: Regularly clean leather with a dry cloth. Treat the leather at least four times a year using only special leather treatment products. Visit ca-mo.com for further information on cleaning leather.

Allure and Grace Leather: Only vacuum clean with a soft brush. Never use soap or water; otherwise, the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid chemical products like saddle soap, leather cleaners, or household products.
