

# Linear System Table

“The Linear System Series places people at its center, being a place to meet, to collaborate or to work in focused solitude. The design process was about creating a system that made for intimately welcoming atmospheres, enhanced by the expression and functionality of its lighting and accessories. With its warm materiality and modern expression, the Linear System Series brings feelings of home into larger spaces to give the user a sense of belonging, even if being there only for a little while. The extensive selection of lighting and accessories means that the Linear System Series can be configured and reshuffled for any purpose of the modern workplace as well as hospitality settings and public areas, arraying the ideas of aesthetic and function into one.”

<b>Description</b>	The Linear System Table is a simple yet refined table with subtle details and references to the Scandinavian design heritage. Its legs are cut into half-circles and joined with the table for a light appearance, while the slender overhang at both ends of the table makes for a refined expression. The Linear System Table is available as a freestanding table, in predesigned configurations, or as modules that you can use to customize your configuration. The narrow version of the Linear System Table is ideal for conference and meeting rooms.

## Material

Tabletop in Oak Veneer, Black version in Ash Veneer or Black Nanolaminate.

Black Nanolaminate has an ABS edge. Multiple tabletop finishes cannot be mixed in a linear system configuration.

The table frame is veneered plywood, and the legs are solid oak. Felt glides included.

Oak Veneer color variations: The Linear System Series oak veneer tabletops use high-quality mix-matched veneer to reduce differences in the visual appearance from tabletop to tabletop. However, wood is a natural material, meaning slight variations can occur from table to table.

Lacquered Oak: Oak is a traditionally Scandinavian material. It is durable against factors such as water and fungi and has a high level of strength, giving it long-lasting properties suitable for furniture.

Nanolaminate: Nanolaminate is a fully dense, ultra-fine-grained solid with a high concentration of interface defects. It is an innovative material with unique features such as low light reflexivity, an extremely matt surface, anti-fingerprints, and anti-bacterial properties. The nanolaminate surface is also resistant to scratches, dry heat, and acid solvents.

ABS: ABS is a common thermoplastic polymer. Within our collection, ABS is used on the edges of tables for an elegant expression with durable character.

Linear System Table W110 cm: Table frame is made from FSC™-certified (FSC-C028824) wood.

## Cleaning & Care

Wood and Veneer Surfaces: Clean the table with a damp cloth. If necessary, only use a mild detergent or washing-up liquid that is not concentrated. Always wipe with a dry cloth afterward. Liquid, grease, etc., should be removed immediately to minimize the risk of stains and marks.

Laminate Surface: Clean the table with a damp cloth. If necessary, use a mild detergent or washing-up liquid, not concentrated. Always wipe with a dry cloth afterward. Liquids, grease, etc., should be removed immediately to minimize the risk of stains and marks.

Nano Laminate: Treat the surface with a melamine sponge available in hardware stores to reduce minor scratches.

## Options

Accessories: Optional Screens and Trays for the Linear System. Screens are available in three sizes to be used either freestanding or mounted. Trays in three different sizes, all to be mounted. We recommend mounting screens to the table. Both trays and screens must be placed at least 5cm / 2" from the table edge. Lighting: More information is available in separate Product Fact Sheets. Table Power Outlet: Each Table Power Outlet has two standard power sockets and both one USB-A and a USB-C socket. Available in region-specific versions for EU and UK. Find more information in separate Product Fact Sheet. Power Kit: Integrated power for Mounted Lamp(s), Table Lamp(s) or Table Power Outlet(s). Available in region-specific versions for EU, UK and US.
