

Fiber Lounge Armchair Wood Base

“One of the most difficult and noble disciplines of design is to create simple, well-functioning, and almost ordinary objects that nevertheless have a strong identity. We designed the Fiber Lounge Soft Armchair to do just that. The chair’s sculptural language, paired with its wide and ultra soft seat, refuses to compromise on comfort and invites the user to sit for hours. The Fiber Soft Armchair enhances the idea of grand comfort through soft wadding and upholstery. The chair’s inner shell uses recycled plastic for a conscious and innovative perspective on materials.”

— Iskos-Berlin

Designed by	Iskos-Berlin
About the Designer	Iskos-Berlin is a Copenhagen-based design duo that has made international headlines within furniture, industrial and graphic design. The studio, formerly known as Komplot Design has collaborated with some of the world’s most prestigious manufacturers and their furniture, lighting and other design products are exhibited at numerous design museums around the world including MoMA and the Designmuseum Denmark.
Environment	Indoor
Country of Production	Poland
Preassembled	Yes
Description	The Fiber Lounge Armchair features a generously spacious seat and embracing curves that embody the elegance of the Fiber Series in a softer, more inviting form. The chair’s shell is made from 100% recycled plastic, supported by a wood base in FSC™-certified (FSC-C028824) solid oak.

Fiber Lounge Armchair

Wood Base

Material

Shell - Without Upholstery:

The shell is made using 100% recycled plastic reinforced with strength-improving additives and mixed with up to 25% FSC™-certified (FSC-C028824) wood fibers. The recycled plastic comes from post-industrial waste. Due to the shell's partly natural material, slight color variations can occur.

Shell – Upholstered Variants:

The shell is made using 100% recycled plastic reinforced with strength-improving additives and mixed with up to 25% wood fibers. The recycled plastic comes from post-industrial waste. Shell can be upholstered with textile, imitation leather, or leather. Leather from selected premium leather suppliers.

Shell – Front upholstered variants:

The shell is made using 100% recycled plastic reinforced with strength-improving additives and mixed with up to 25% wood fibers. The recycled plastic comes from post-industrial waste. Due to the partly natural material of the shell, slight color variations can occur. The shell can be front upholstered with textile, imitation leather, or leather, which is from selected premium leather suppliers.

Base:

Wood base in FSC™-certified (FSC-C028824) oak with water-based lacquer. For Stained Dark Brown version only: Please note that slight color variations can occur due to the inherent characteristics of the material. Plastic glides.

Please note that the Fiber Chair with recycled plastic will be available in North America during 2024.

Therefore, the North American versions are not EU Ecolabel Certified.

Cleaning & Care

Textile: For textile upholstered versions: In case of stains, we generally recommend removing non-greasy stains by carefully dabbing them with a lint-free cloth or sponge wrung out in clean, warm water. Clean by dabbing with soapy water made with a bit of dish soap if necessary. Finally, dab the surface with clean water. We advise visiting Kvadrat.dk, Nevotex.dk, Maharam.com, or Gabriel.dk for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.

Imitation Leather: Clean with lukewarm PH-neutral, soapy water and a soft cloth or soft brush. Do not use solvents or chemical cleaners, but cleaning can be done with alcohol-based cleaners. Finally, wipe with a damp cloth afterward.

Leather: As a natural material, leather requires looking after. If you care for the leather in the right way, it will become even more beautiful over time. Refine Leather, Easy Leather, and Endure Leather: Regularly clean leather with a dry cloth. Treat the leather at least four times a year using only special leather treatment products. Visit ca-mo.com further information on cleaning leather.

Allure and Grace Leather: Only vacuum clean with a soft brush. Never use soap or water otherwise the velvety look and feel will disappear. Do not apply leather grease or soak the leather. Avoid chemical products, such as saddle soap, leather cleaners, or household products.

Base: Clean with a moist cloth. If necessary, use a little dish soap on the cloth.

Fiber Lounge Armchair Wood Base
